Project Summary

* indicates a required field

Project title

Project title: *

Word count:

Must be no more than 250 characters no more than 10 words.
Provide a short, descriptive title for the project.

Project description

Describe the proposed project, including the activities to be undertaken, key greening outcomes, and the areas to be treated or improved. *

Word count:

Must be no more than 50 words.

Project location description

Provide the address or location of the project and a brief description of the site and surrounding area. Optional: Briefly describe the site's current condition, including existing vegetation, tree canopy, habitat features, land use, and any key environmental or climate resilience challenges the project seeks to address. *

Word count:

Must be no more than 250 words.

Attach project location supporting documents, plans, maps, photos etc.

Attach a file:

Proposed project start and end dates

Proposed construction start date *

Must be a date and no later than 31/12/2026.

Proposed construction/maintenance end date *

Must be a date and no later than 31/12/2029.

Secondary contact position title *

Secondary contact phone number *

Must be an Australian phone number.

Secondary contact email *

Must be an email address.

Greening

Greening

What are the greening objectives for the project? What is the area of the project site / area of new green cover to be converted? Provide the estimated area (m²) of new green cover to be created through the project. This may include the conversion of roads, footpaths, car parks, hard surfaces, bare ground, rooftops, walls or other grey or brown infrastructure into vegetated areas. Where relevant, also provide:

- the estimated increase in tree canopy cover over time
- the number of trees to be planted details of any existing green cover or tree canopy proposed to be removed, including justification (e.g. where grass is being replaced by landscape plantings). For biodiversity enhancement of existing vegetation communities please provide the area to be enhanced.

Word count:

Must be no more than 250 words.

Attach project location supporting documents, plans, maps, photos etc.

Attach a file:

Biodiversity

Biodiversity

What are your biodiversity objectives for the project? What is your rationale for determining these objectives? What are the fauna species that the biodiversity plantings are targeting, and why have these been chosen?

Word count:

Must be no more than 250 words.

Attach documents, plans, maps, photos etc.

Attach a file:

Does the project enhance or build upon existing habitat, link disconnected habitats and provide corridors for fauna, provide habitat for threatened species?

Word count:

Must be no more than 250 words.

Please provide your species planting lists, identifying any that are locally indigenous or of conservations significance. Identify pre-European vegetation association from Nature Maps and confirm with a site inspection. (Note there are areas of rarer plant associations not identified on Nature Maps)

Word count:

Must be no more than 250 words.

Does the project include recovery efforts for threatened plant species? Which ones?

Word count:

Must be no more than 250 words.

Water Sensitive Urban Design (WSUD)

What are the project's Water Sensitive Urban Design objectives and rationale for determining these objectives (e.g. how will this support passive watering and cooling of new or existing green space)?

Word count:

Must be no more than 250 words.

How many WSUD treatments or what proportion of the catchment area upstream of the project that will be treated by WSUD? For permeable paving please identify the adjacent impervious area contributing runoff to the permeable pavement. Where there is more than one type of WSUD treatments proposed, please ensure the budget table identifies the cost of each type of WSUD treatment separately.

Word count:

Must be no more than 250 words.

Attach documents, plans, maps, photos etc.

Attach a file:

What is the reduction in volume of stormwater runoff to the downstream system? E.g. infiltration into soakage pits or trenches, evapotranspiration from raingardens and wetlands, and rainwater tank usage.

Word count:

Must be no more than 250 words.

Community Benefit and Partnerships including Kaurna

Describes how this project involves and/or connects communities to their environment (e.g. community engagement events, volunteering and nature education opportunities) and/or additional partnership opportunities.

Cooler Greener Wilder Grants - 26/27 application form

Form Preview

Word count:

Must be no more than 250 words.

Describe how the project will deliver public benefit including: • Retaining legacy trees • level of public use of area including number of pedestrians • likely positive human-nature interactions • signage for nature education • increasing shade in areas of high public use.

Word count:

Must be no more than 250 words.

Describe how this project has or will engage Kurna and incorporate Kurna input into planning, design, instillation or public art, signage or interpretation.

Word count:

Must be no more than 250 words.

Describe how this project incorporates Kurna knowledge, and Caring for Country values. Have Aboriginal Cultural Heritage and Native Title considerations been assessed for the project? Please describe any investigations undertaken, consultation completed, or approvals required, and identify any known constraints or opportunities (e.g. site heritage surveys, proposed use of Kurna language of names, Cultural references or signage, interpretation, or art work).

Word count:

Must be no more than 250 words.

Project Risk, Asset Management and Monitoring

How will the longevity of the project be managed to ensure long term outcomes? For example, 1) Which asset management plan will the project be included in? 2) Has this identified the replacement lives of different components of the project, e.g. WSUD and biodiversity plantings? 3) Provide details of the suitably qualified / experienced staff or contractors that will undertake the maintenance activities.

Word count:

Must be no more than 250 words.

Which (if any) elements of this project are experimental or trials of innovative new approaches for council or industry wide?

Word count:

Must be no more than 250 words.

Please list any Green Adelaide staff that you have discussed this proposal with prior to submitting. What advice was included in the grant application?

Word count:

Must be no more than 250 words.

Briefly describe how the success of the project will be understood by both quantitative and qualitative measures (e.g. Are monitoring/ evaluation/ continuous improvement systems in place? How does the monitoring relate to the objectives?)

Word count:

Must be no more than 250 words.

How does this project relate to strategic plans including Adelaide Metropolitan Greening Strategy, council Stormwater Management Plan, and council biodiversity plans?

Word count:

Must be no more than 250 words.

Risk Management Plan: Identify project risks and briefly describe the risk management measures that will be put in place (e.g. anything that could impact adjacent community, timelines, budget or scope of the project).

Budget

* indicates a required field

Please list each project activity for which funding is sought **in as much detail as possible**, with at least 6 monthly milestones

All amounts should be GST exclusive.

Please itemise contributions from all sources, including all cash and in-kind contributions.

Please ensure that project activities and budget related to BSUD/greening, and WSUD are each separately identified. If there are different BSUD or WSUD elements please include these separately eg raingardens and Treenet inlets.

Budget table

Project Activity	Start Date	Finish Date	Grant Funding Sought (\$)	Other Cash Contributions (\$)	Other Cash Contribution Source	In-Kind Contribution	Identify In-Kind Contribution	Notes
	Must be a date.	Must be a date.	Must be a dollar amount.	Must be a dollar amount.		Must be a dollar amount.

\$

This number/amount is calculated.
Including Grant funding sought, cash and in-kind contributions

Is there council budget approved for the project? If not when will the decision be made regarding whether it will be funded? *

Please attach evidence of your budget calculations (e.g. quotes, hourly rates, material prices etc.). Also use this upload feature for any financial support letters etc. *

Attach a file:

Please name attached documents clearly i.e. quote for....

Additional budget information

If required, use this section to detail any additional budget information not captured above.

Supporting Documents

Please attach any supporting documents that you have obtained so far. Please name attached documents clearly i.e. quote for, Risk Register etc.

- Project location map:
- Project brief
- Plans, maps, images, concept designs, detailed designs, tender specifications etc.
- Quotes, cost estimates
- Plant species list and numbers of each to be planted
- Approvals/permits or evidence that approvals are being sought or not required
- Evidence of partnership support
- Evidence of Kurna or other Aboriginal engagement
- Risk Management Plan
- Any other supporting documents

Outputs

Activities

Please tell us what activities you will be undertaking within your project.

PLEASE SELECT ALL THAT APPLY, you can undertake multiple activities.

If you are undertaking an activity that is not listed, please include details elsewhere in the application

Activities

Which of our outcomes will your project contribute to? If multiple apply pick the most relevant. No more than 1 choice may be selected.

Outputs

For each of the activities you have chosen above, please select ALL of the outputs for that activity: for example:

Planting - select 2 outputs

You are required to have targets against all outputs within an activity

You can add more lines by clicking 'Add more' at the bottom of the page.

Outputs	Target	Description	Timing
For each of the activities you have chosen above please select ALL the outputs that display No more than 1 choice may be selected.	Identify a target for the output you have chosen - an estimated total for your project. e.g. 200 plants planted, 10 structures installed Must be a number.	Please provide more information, e.g. species to be planted, who is undertaking the work, how will the work be undertaken	Please provide an indication of a timeframe, e.g. Autumn 2026, December 2026 etc.

Declaration and Consent
